

SUBTRACTION SENTENCE

Subtraction Sentence

Example 1:

Find the subtraction sentence.

$$5 - 3 = ?$$

Solution:

$$5 - 3 =$$

=

Therefore,

$$5 - 3 = 2$$

Example 2:

Find the subtraction sentence.

$$4 - 2 = ?$$

Solution:

$$4 - 2 =$$

$$=$$

Therefore,

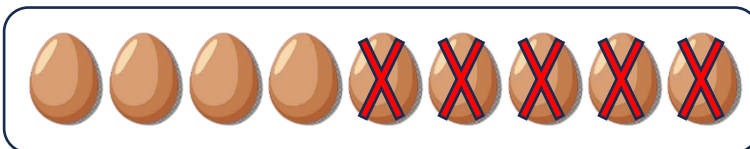

$$4 - 2 = 2$$

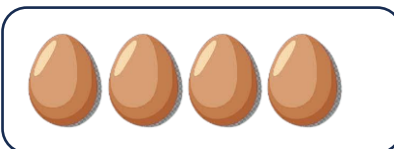

Example 3:

Find the subtraction sentence.

$$9 - 5 = ?$$

Solution:

$$9 - 5 =$$

$$=$$

Therefore,

$$9 - 5 = 4$$

Example 4:

Find the subtraction sentence.

$$\boxed{8} - \boxed{3} = \boxed{?}$$

Solution:

$$8 - 3 =$$

=

Therefore,

$$\boxed{8} - \boxed{3} = \boxed{5}$$

Example 5:

Find the subtraction sentence.

$$\boxed{10} - \boxed{?} = \boxed{7}$$

Solution:

To find the subtrahend, move the difference to the left hand side.

Minuend - difference = subtrahend

$$10 - 7 = ?$$

$$10 - 7 =$$

=

Therefore,

$$\boxed{10} - \boxed{3} = \boxed{7}$$

Example 6:

Find the subtraction sentence.

$$\boxed{6} - \boxed{?} = \boxed{2}$$

Solution:

To find the subtrahend, move the difference to the left hand side.

Minuend - difference = subtrahend

$$6 - 2 = ?$$

6 - 2 = 

= 

Therefore,

$$\boxed{6} - \boxed{4} = \boxed{2}$$

Example 7:

Find the subtraction sentence.

$$\boxed{9} - \boxed{?} = \boxed{3}$$

Solution:

To find the subtrahend, move the difference to the left hand side.

Minuend - difference = subtrahend

$$9 - 3 = ?$$

9 - 3 = 

= 

Therefore,

$$\boxed{9} - \boxed{6} = \boxed{3}$$

Example 8:

Find the subtraction sentence.

$$\boxed{4} - \boxed{?} = \boxed{1}$$

Solution:

To find the subtrahend, move the difference to the left hand side.

Minuend - difference = subtrahend

$$4 - 1 = ?$$

$$4 - 1 = \begin{array}{cccc} \text{strawberry} & \text{strawberry} & \text{strawberry} & \text{strawberry} \\ \text{strawberry} & \text{strawberry} & \text{strawberry} & \text{strawberry} \end{array}$$

$$= \begin{array}{ccc} \text{strawberry} & \text{strawberry} & \text{strawberry} \\ \text{strawberry} & \text{strawberry} & \text{strawberry} \end{array}$$

Therefore,

$$\boxed{4} - \boxed{3} = \boxed{1}$$

Example 9:

Find the subtraction sentence.

$$\boxed{7} - \boxed{?} = \boxed{2}$$

Solution:

To find the subtrahend, move the difference to the left hand side.

Minuend - difference = subtrahend

$$7 - 2 = ?$$

$$7 - 2 = \begin{array}{ccccccc} \text{rainbow} & \text{rainbow} & \text{rainbow} & \text{rainbow} & \text{rainbow} & \text{rainbow} & \text{rainbow} \\ \text{rainbow} & \text{rainbow} & \text{rainbow} & \text{rainbow} & \text{rainbow} & \text{rainbow} & \text{rainbow} \end{array}$$

$$= \begin{array}{ccccc} \text{rainbow} & \text{rainbow} & \text{rainbow} & \text{rainbow} & \text{rainbow} \\ \text{rainbow} & \text{rainbow} & \text{rainbow} & \text{rainbow} & \text{rainbow} \end{array}$$

Therefore,

$$\boxed{7} - \boxed{5} = \boxed{2}$$
