

Metric units of measuring length

(subtraction and conversion without regrouping)

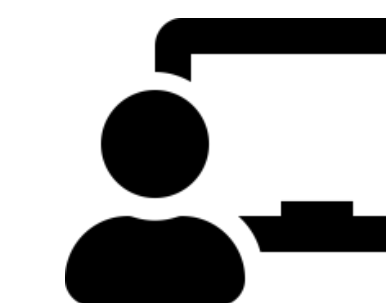

1) Subtract 22 millimeters from 43 millimeters.

Solution:

	millimeters
	43
	22

So, answer is _____.

Convert the answer into **centimeters**

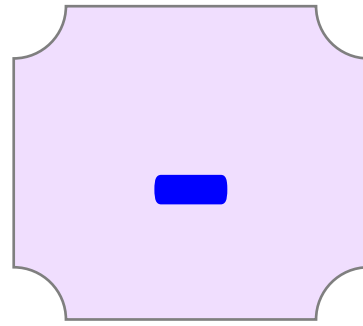

Solution:

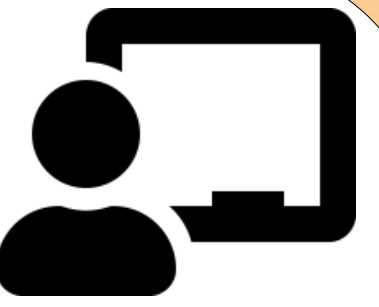

2) Subtract 16 meters from 18 meters.

Solution:

	meters
	1 8
	1 6

So, answer is _____.

Convert the answer into **millimeters**

Solution:

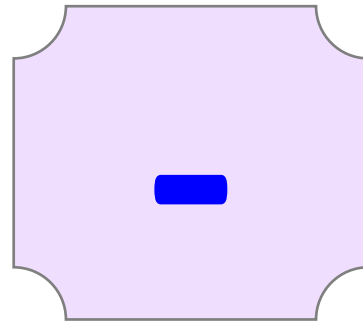

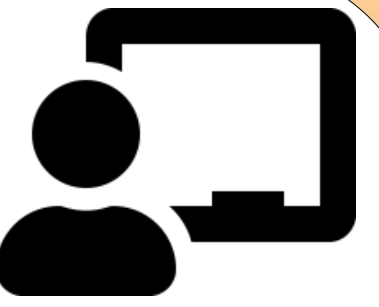

3)

Subtract 24 kilometers from 47 kilometers.

Solution:

	kilometers
	47
	24

So, answer is _____.

Convert the answer into **meters**

Solution:

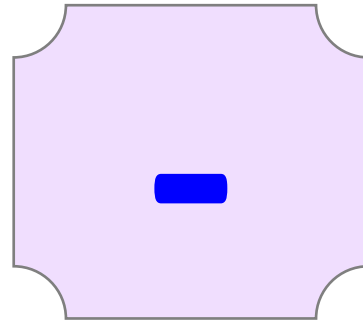

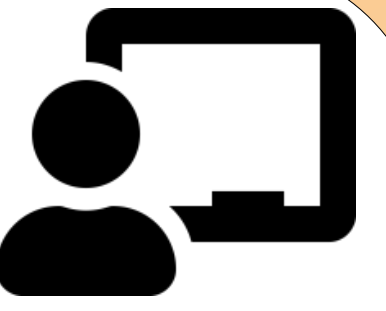

4)

Subtract 15 centimeters from 58 centimeters.

Solution:

	centimeters
	58
	15

So, answer is _____.

Convert the answer into **millimeters**

Solution:

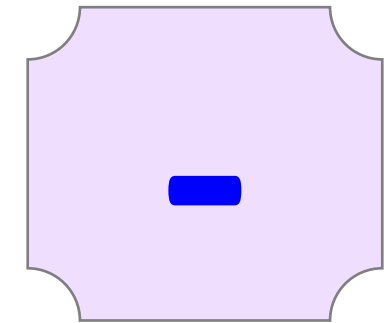

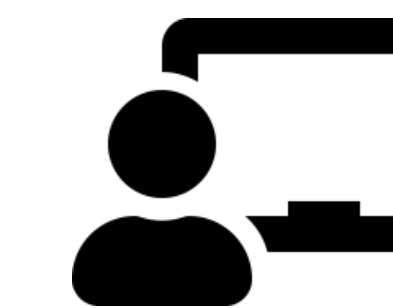

5)

Subtract 34 millimeters from 65 millimeters.

Solution:

	millimeters
	65
	34

So, answer is _____.

Convert the answer into meters

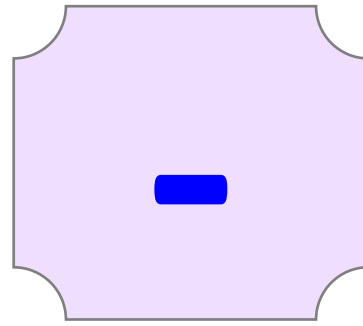

Solution:

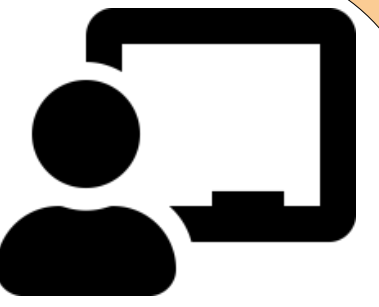

6) Subtract 47 meters from 79 meters.

Solution:

	meters
	79
	47

So, answer is _____.

Convert the answer into **kilometers**

Solution:
