

# Customary units of measuring length

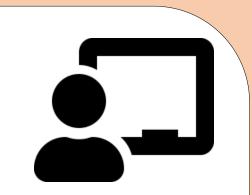

(Subtraction and conversion without regrouping)

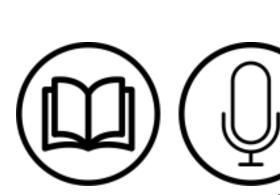

# 1) Subtract 55 feet and 34 feet.

### Convert the answer into inches.

# Solution:

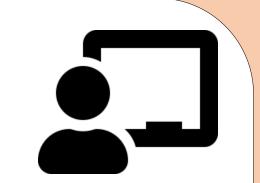

|  | Tens | Ones |
|--|------|------|
|  | 5    | 5    |
|  | 3    | 4    |
|  |      |      |

So, answer is \_\_\_\_\_\_.

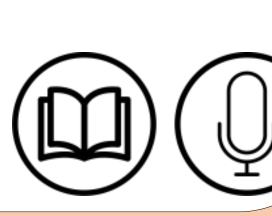

#### Convert the answer into feet.

# Solution:

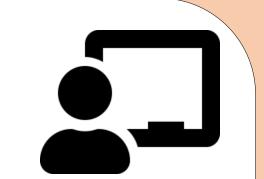

|  | Tens | Ones |
|--|------|------|
|  | 6    | 9    |
|  | 2    | 1    |
|  |      |      |

So, answer is \_\_\_\_\_\_.

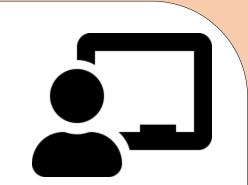

#### Convert the answer into miles.

## Solution:

|  | Tens | Ones |
|--|------|------|
|  | 2    | 7    |
|  | 1    | 5    |
|  |      |      |

So, answer is \_\_\_\_\_\_.

# 4) Subtract 68 miles and 66 miles.

# Convert the answer into yards.

# Solution:

|  | Tens | Ones |
|--|------|------|
|  | 6    | 8    |
|  | 6    | 6    |
|  |      |      |

So, answer is \_\_\_\_\_\_.
