## Read the statement and solve the problem

1) There are 2 baskets of apples. Each basket has 7 apples in it. How many apples are there in total?

> Total number of basket $=2$
> No. of apple in a basket $=\frac{7^{\mathrm{X}}}{14}$

So , totally 14 apple are there.
2) There are 6 trees with birds. Each tree has 12 birds. How many birds are there in total?
3) There are 13 coins in each jar. There are 25 jars filled with coins. How many coins are there in total?
