

## Find the quotient and remainder using long division method

1)  $304 \div 8$

$$\begin{array}{r}
 38 \\
 8 \overline{) 304} \\
 \underline{-24} \phantom{0} \\
 64 \\
 \underline{-64} \\
 0
 \end{array}$$

**Q = 38 ; R = 0**

2)  $559 \div 9$

**Q = \_\_\_\_ ; R = \_\_\_\_**

3)  $455 \div 6$

**Q = \_\_\_\_ ; R = \_\_\_\_**

4)  $328 \div 5$

**Q = \_\_\_\_ ; R = \_\_\_\_**

5)  $178 \div 3$

**Q = \_\_\_\_ ; R = \_\_\_\_**

6)  $856 \div 4$

**Q = \_\_\_\_ ; R = \_\_\_\_**
