

Subtract the given unit, convert and write the correct answer

1) Subtract 35 feet and 22 feet

feet	
3	5
1	2
2	3

→ 23 feet

Convert the answer into inches

$$1 \text{ foot} = 12 \text{ inches}$$

$$23 \text{ feet} = 23 \times 12 \text{ inches}$$

$$23 \text{ feet} = 276 \text{ inches}$$

2) Subtract 90 yards and 40 yards

yards	

→

Convert the answer into feet

3) Subtract 67 miles and 57 miles

miles	

→

Convert the answer into yards

4) Subtract 96 inches – 12 inches

inches	

→

Convert the answer into feet
